

IEEE presents: Open Access Workflow for Authors

Presented by:
Quinn Lockhart, IEEE Client Services Manager
q.lockhart@ieee.org

About the IEEE

- IEEE is a leading authority and trusted voice in a wide variety of areas ranging from electrical engineering, telecom, computing, aerospace, AI, semiconductors, power and energy, sustainability and more
- Not for profit “Advancing Technology For Humanity”
- World’s largest technical largest technical professional organization with over 450,000 members globally
- Core areas of activity:
 - Membership organization
 - Conferences organizer
 - Standards developer
 - Publisher of leading journals, conferences, standards, eBooks, and eLearning
- IEEE *Xplore* digital library by the numbers:
 - More than 6 million total documents
 - More than 24 million downloads per month
 - Over 8 million unique users each month

140
YEARS

*Celebrating 140 Years of
Advancing Technology for Humanity*

IEEE Smart Village Activities

A volunteer network empowering off-grid communities through education and the creation of sustainable, affordable, locally owned entrepreneurial energy businesses serving 70,000 people in 280 villages in Cameroon, Haiti, Nigeria, Kenya, South Sudan, Himalayas, India and more.

smartvillage.ieee.org

IEEE Action on Climate Change

IEEE is committed to helping combat the effects of climate change through pragmatic and accessible technical solutions and providing engineers and technologists with a space for discussion and action. IEEE has also developed a climate change collection of articles on IEEE *Xplore*.

climate-change.ieee.org

IEEE Publications: Stay Current with Quality, Trusted Resources

Base your research on a quality resource you can trust.

Latest studies reinforce that IEEE has the **top cited publications** and **more top quartile publications** in IEEE fields of interest than any other publisher.

Journal Impact Factor™ (JIF) is one of several metrics used in the technical community to compare the impact of scholarly research journals. In the most recent JCR, a wide range of IEEE publications were among the most-cited journals in multiple categories.

Citation Ranking by Journal Impact Factor:

- 21 of the top 25 journals in **Electrical and Electronic Engineering**
- 13 of the top 15 journals in **Telecommunications**
- 5 of the top 10 journals in **Computer Science, Artificial Intelligence**
- 5 of the top 10 journals in **Imaging Science**
- 4 of the top 5 journals in **Automation and Control systems**
- 3 of the top 5 journals in **Computer Science, Cybernetics**
- 3 of the top 5 journals in **Computer Science, Hardware & Architecture**
- 3 of the top 5 journals in **Computer Science, Information Systems**

For more details, visit: www.ieee.org/citations

IEEE Leads in Top Quartile Ranked Publications

Telecommunications

IEEE has the top 10 journals:

1. IEEE Access
2. IEEE Internet of Things Journal
3. IEEE Transactions on Vehicular Technology
4. IEEE Transactions on Wireless Communications
5. IEEE Transactions on Communications
6. IEEE Transactions on Antennas and Propagation
7. IEEE Journal on Selected Areas in Communications
8. IEEE Communications Surveys and Tutorials
9. IEEE Wireless Communications Letters
10. IEEE Communications Letters

Additional Journal Bibliometrics...

IEEE Journal Rankings by Article Influence Score (AIS)

Electrical and Electronic Engineering IEEE has 8 of the top 10 journals:

1. Nature Electronics
2. IEEE Transaction on Pattern Analysis and Machine Intelligence
3. IEEE Signal Processing Magazine
4. Proceedings of the IEEE
5. IEEE Journal on Selected Areas in Communications
6. IEEE Transactions on Image Processing
7. IEEE Wireless Communications
8. IEEE Journal of Selected Topics in Signal Processing
9. IEEE Transactions on Neural Networks and Learning Systems
10. eTransportation

Telecommunications

IEEE has 9 of the top 10 journals:

1. IEEE Communications Surveys and Tutorials
2. IEEE Journal on Selected Areas in Communications
3. IEEE Wireless Communications
4. IEEE Vehicular Technology Magazine
5. IEEE Communications Magazine
6. IEEE Transactions on Wireless Communications
7. IEEE Network
8. IEEE Transactions on Multimedia
9. Satellite Navigation
10. IEEE Transactions on Communications

New IEEE Open Access Journals Receive First Impact Factors

Fourteen of IEEE's open access journals were awarded their first Journal Impact Factors and accepted into the Web of Science Collection since 2020:

- IEEE Open Journal of Antennas and Propagation
- IEEE Open Journal of Circuits and Systems
- IEEE Open Journal of the Communications Society
- IEEE Open Journal of the Computer Society
- IEEE Open Journal of Engineering in Medicine and Biology
- IEEE Open Journal of the Industrial Electronics Society
- IEEE Journal of Microwaves
- IEEE Open Journal of Intelligent Transportation Systems
- IEEE Open Journal of Nanotechnology
- IEEE Open Journal of Power Electronics
- IEEE Open Access Journal of Power and Energy
- IEEE Open Journal of Signal Processing
- IEEE Open Journal of Vehicular Technology
- IEEE Open Journal of Industry Applications

According to Clarivate, the Web of Science Core Collection™ follows a unique selection process using a set of 24 quality criteria designed to select for editorial rigor and best practice at the journal level. Journals that meet the quality criteria are entered into the Clarivate Emerging Sources Citation Index™ (ESCI).

New IEEE Journal Titles for 2024 and 2025

These titles* will be accessible via subscription:

- *IEEE Electron Devices Reviews* (late 2024)
- *IEEE Energy Sustainability Magazine* (2025)
- *IEEE Reliability Magazine* (2024)
- *IEEE Robotics and Automation Practice* (late 2024)
- *IEEE Transactions on Circuits and Systems for Artificial Intelligence* (late 2024)
- *IEEE Transactions on Field Robotics* (late 2024)
- *IEEE Transactions on Materials for Electron Devices* (2024)

*Please note this is a tentative list and is subject to change.

New Open Access Journal Titles for 2024 and 2025

- *IEEE **Data** Descriptions* (2024)
- *IEEE Journal of Selected Areas in **Sensors*** (2024)
- *IEEE Journal of Selected Topics in **Electromagnetics, Antennas and Propagation*** (2025)
- *IEEE Open Journal on **Immersive Displays*** (2024)
- *IEEE **Sensors** Reviews* (2024)
- *IEEE **Systems, Man, and Cybernetics** Letters* (2024)
- *IEEE Transactions on **Privacy*** (2024)

*Please note this is a tentative list and is subject to change.

Getting Published at IEEE

IEEE as a publisher...

- IEEE has been a trusted voice for engineering and technology with a long history back to 1884
- IEEE journals are trusted, respected, and rank among the most highly cited in their fields
- There are over 8 million monthly users of the IEEE *Xplore*® Digital Library
- All publications follow IEEE's established rigorous peer review process, publishing principles and quality standards
- IEEE maintains partnerships with Abstracting and Indexing providers such as Elsevier, EBSCO, OCLC, Clarivate, ProQuest, CrossRef and NLM to maximize the discovery of author works
- Indexed by Google, allowing Google search results to include links to IEEE *Xplore*

Visit IEEE Author Center

Selecting the Right Publication for Your Research

- **Reputation of Publisher:** Does it have a long history and strong reputation as a credible source for quality information?
- **Journal Quality:** What are the citation metrics. Does it have an Impact Factor (IF), Eigenfactor, Article Influence Score or other citation metrics?
- **Indexing:** Is the journal listed and indexed in scholarly journal databases such as Web of Science, Scopus, or the Directory of Open Access Journals (DOAJ)? This helps ensure your work is discoverable, read and cited
- **Peer Review:** Does the journal have a strong peer review process that can even help you improve your work and the chances of it being cited?
- **Platform:** Does the journal platform receive significant traffic, is it easily accessible and stable?

Pick Your Target

- ▶ Select just **one** target publication; concurrent submissions are unethical
- ▶ Start by looking at the publications cited in your references
- ▶ Ask your supervisor or other colleagues experienced in publishing for recommendations
- ▶ Read the Aims & Scope of your potential targets to ensure your article is a good fit
- ▶ Check out the IEEE Publication Recommender

Aims & Scope

The *IEEE Transactions on Fuzzy Systems* publishes high quality technical papers in the theory, design, and application of fuzzy systems. Readers are encouraged to submit papers which disclose significant technical knowledge, exploratory developments and applications of fuzzy systems. Emphasis is given to engineering systems and scientific applications. The Transactions also contains a letters section which includes information of current interest, and comments and rebuttals submitted in connection with published papers.

Author Resources

[Submission Guidelines](#)

[Submit Manuscript](#)

[Author Center](#)

IEEE journal or IEEE conference?

- A **journal article** is a fully developed presentation of your work and its final findings
 - Original research results are presented
 - Clear conclusions are made and supported by the data
- A **conference paper** can be written while research is still ongoing
 - Can present preliminary results or highlight recent work
 - Gain informal feedback to use in your research
 - Typically, shorter than journal articles, with less detail and fewer references

Factors for authors to consider when choosing a publication

Advantages

IEEE Journals

IEEE journals represent some of the top cited journals in the field according to annual Journal Citation reports and are cited nearly 3X more often in patents than other publishers*

Disadvantages

The acceptance rate of a quality scholarly journal is rather low, so the chance of a submission being rejected can be pretty high

IEEE Conferences

IEEE Conference proceedings are recognized worldwide as the most vital collection of consolidated published articles in EE, computer science, and related fields

You have to turn up – if you don't present, your paper may be suppressed in IEEE *Xplore* and not indexed in other databases

*Source: www.ieee.org/citations, www.ieee.org/patentcitations

The Peer Review Process

What is Peer Review?

Peer review is “the critical assessment of manuscripts submitted to [publications] by experts who are not part of the editorial staff.”¹

¹International Committee of Medical Journal Editors

How It Works

What Reviewers and Editors Look For

Scope

Validity

Novelty

Importance

Clarity

Interest

Compliance

Checklist for submitting your article for peer review

Get ready for peer review. IEEE has created a checklist for submitting your article to ensure you don't miss any important steps.

While preparing to submit your article for peer review make sure to:

- **Follow the Instructions!** Review the submission guidelines for your target publication to ensure your article meets all requirements.
- Agree on who will serve as the article's corresponding author if your article has multiple authors.
- Check that you have all necessary files.
- Get an ORCID ID if you do not have one at orcid.org
 - Open Researcher and Contributor ID: a unique 16-digit identifier to help distinguish you from other researchers and connects your publication record

View the [Checklist](https://ieeauthorcenter.ieee.org) at the IEEE Author Center: ieeauthorcenter.ieee.org

Why IEEE editors and reviewers reject papers

- The content is not a good fit for the publication
- There are serious scientific flaws:
 - Inconclusive results or incorrect interpretation
 - Fraudulent research
- It is poorly written
- The work was previously published or is not sufficiently novel
- It does not address a significant enough problem or does not advance the scientific field
- The quality is not good enough for the journal
- The paper does not make a strong enough case to convince reviewers
- Poor structure and presentation

How to find OA publication options

Find the best match for your scholarly article

Choose a search type and let Publication Recommender do the work!

IEEE's Evolving Open Access Program

To help authors gain maximum exposure for their groundbreaking research and application-oriented articles, IEEE offers three options for open access (OA) publishing, all designed to meet the varying needs of our authors throughout their careers.

OA Publishing Options

1. **Hybrid Journals** – **180+** journals and magazines spanning an array of technology fields. **These titles have Transformative Status under Plan S.**
2. **Fully Open Access Topical Journals** – **30+ titles** and more coming soon
3. **Multidisciplinary OA journal - IEEE Access**
 - IEEE's largest open access journal, over 84,000 articles since 2013
 - Highly cited journal in a range of fields
 - Rapid yet rigorous peer review process of 4 to 6 weeks.

With the above options for authors, IEEE has published nearly **120,000** open access articles in IEEE *Xplore*.

IEEE Publishes More Than 30 Fully Open Access Journals

All hosted on the IEEE Xplore® Digital Library and are fully compliant with funder mandates, including Plan S.

- ▶ IEEE Access
- ▶ IEEE Data Descriptions **New for 2024**
- ▶ IEEE Journal of the Electron Devices Society
- ▶ IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing
- ▶ IEEE Journal on Exploratory Solid-State Computational Devices and Circuits
- ▶ IEEE Journal of Indoor and Seamless Positioning and Navigation
- ▶ IEEE Journal of Selected Areas in Sensors **New for 2024**
- ▶ IEEE Journal of Microwaves
- ▶ IEEE Journal of Translational Engineering in Health and Medicine
- ▶ IEEE Open Journal of Antennas and Propagation
- ▶ IEEE Open Journal of Circuits and Systems
- ▶ IEEE Open Journal of the Communications Society
- ▶ IEEE Open Journal of the Computer Society
- ▶ IEEE Open Journal of Control Systems
- ▶ IEEE Open Journal on Immersive Displays **New for 2024**
- ▶ IEEE Open Journal of Engineering in Medicine and Biology
- ▶ IEEE Open Journal of the Industrial Electronics Society
- ▶ IEEE Open Journal of Industry Applications
- ▶ IEEE Open Journal of Instrumentation and Measurement
- ▶ IEEE Open Journal of Intelligent Transportation Systems
- ▶ IEEE Open Journal of Nanotechnology
- ▶ IEEE Open Access Journal of Power and Energy
- ▶ IEEE Open Journal of Power Electronics
- ▶ IEEE Open Journal of Signal Processing
- ▶ IEEE Open Journal of the Solid-State Circuits Society
- ▶ IEEE Open Journal of Systems Engineering
- ▶ IEEE Open Journal of Ultrasonics, Ferroelectrics, and Frequency Control
- ▶ IEEE Open Journal of Vehicular Technology
- ▶ IEEE Photonics Journal
- ▶ IEEE Sensors Reviews **New for 2024**
- ▶ IEEE Systems, Man, and Cybernetics Letters **New for 2024**
- ▶ IEEE Transactions On Machine Learning in Communications and Networking
- ▶ IEEE Transactions on Neural Systems and Rehabilitation Engineering
- ▶ IEEE Transactions on Privacy **New for 2024**
- ▶ IEEE Transactions on Quantum Engineering

Publishing Open Access Articles under the Agreement with Chalmers University of Technology

Some key points of the agreement:

The Chalmers University of Technology Library covers the article processing charge (APC) of papers published by its researchers in IEEE's open access and hybrid journals.

Open Access Agreement

☐ I have read and agree to the terms below.

By submitting this manuscript to the Power and Energy Technology Systems Journal, I agree that if accepted, it will be published as open access and that I am responsible for the following publication fees:

US \$1,350 per manuscript up to a maximum of 8 published pages

US \$120 per published page in excess of 8 pages

Some institutions offer assistance for open access funding. Check our [institutional partners list](#) to see if yours is one.

Save

Save & Continue

* I have read and agree to the terms below.

By submitting this manuscript to the Photonics Journal, I agree that, if accepted, it will be published as open access and that I am responsible for the payment of the open access article processing charge (APC):

US \$1,850 - Non Member
US \$1,758 - IEEE Member (5% Discount)
US \$1,480 - Photonics Society Member (20% Discount)

Note:
Applicable taxes will be added to all open access charges at time of processing for bill to addresses in Canada and in all European Union countries. Bill to customers who are VAT registered in European Union countries will not have tax added when they provide their VAT registration number.

Some institutions offer assistance for open access funding. Check our [institutional partners list](#) to see if yours is one.

Note: There is some pricing variation among journals.
More detailed article processing charge (APC) information can be found at <https://open.ieee.org/index.php/for-authors/article-processing-charges/>.

Post acceptance – hybrid review

Open Access

* This publication is a hybrid journal, giving authors the choice of making their article freely accessible to users by paying an open access article processing charge (APC), or choosing traditional article publication, allowing access to users through subscription and other purchasing options. Now that your article has been accepted for publication you may enable unrestricted public access by selecting "yes" below. If you select yes, you commit to pay the US \$2,350 APC.

Although voluntary page charges do not apply to open access article submissions, other applicable charges (such as over-length paper charges or a charge for the use of color in print format) will be billed separately once article formatting is complete (but prior to publication). Over-length paper charge details can be found [here](#).

For any questions regarding IEEE open access policies, please refer to our [Frequently Asked Questions on open access](#).

- ☐ **Yes** - please make my article Open Access. I understand that there is a \$2,350 APC associated with Open Access publication. Some institutions offer assistance for open access funding. Check our [institutional partners list](#) to see if yours is one.
- ☐ **No** - my article is a traditional submission. I understand that over-length paper charges or color charges may still apply, as outlined above.

IEEE supports author choice when publishing in a hybrid journal.

Hybrid journal authors are asked to select open access or traditional (closed) after acceptance.

The institutional partners list goes to <https://open.ieee.org/for-institutions/institutional-partners/>

Post acceptance – upload final files in Author Portal

Some IEEE Publications have migrated to the IEEE Author Portal, a new and streamlined interface for authors.

Main Landing Page (what an author sees when they login to Author Portal and have a submission awaiting Final Files.

Next Step: Publication Agreement →

Post acceptance – copyright selection

After acceptance, authors will be prompted to choose a copyright license using the IEEE Electronic Copyright Form (eCF).

- Authors publishing in hybrid journals may choose between:
 - **CC-BY**: author retains copyright and the article is published open access
 - **CC-BY NC-ND**: author retains copyright in a more restrictive license than CC-BY in that the article may not be reused for commercial purposes, nor may the article be changed in any way
 - **Traditional** license in which copyright is transferred to the publisher and the article is published behind a paywall
- Authors publishing in gold journals may choose between **CC-BY** or **CC-BY NC-ND**.
- Authors should confirm any license restrictions set by the institution.

IEEE Electronic Copyright Form (eCF)

1. Confirm that the article details are correct.
2. Confirm the paper's originality
3. OA Authors must agree "to pay" an APC (Article Processing Charge)
4. Select and sign CC-BY license type
5. Download a copy of the agreement

Select Language ▼

Step 3: Selecting the appropriate publishing model

► Please select the appropriate open access license type.

☒ I would like to publish under the Creative Commons Attribution License(CCBY).

☐ I would like to publish under the Creative Commons Attribution NonCommercial, No Derivatives License(CCBY-NC-ND).

Notice to Authors who have received Wellcome Trust funding
In order to support Wellcome Trust's Open Access policy, all articles by authors who have received funding from Wellcome Trust to cover article processing charges (APC) must be published under the Creative Commons Attribution License (CCBY). Wellcome Trust will not cover the APC cost if an author chooses a license other than CCBY.

Back Continue

About CCBY License

Points to Consider:
Conditions agreement.

Your institution may have an existing agreement with the IEEE to cover the Open Access charges. A CCBY license is a requirement.
<https://open.ieee.org/index.php/for-institutions-funders/institutional-options/>

About CCBY-NC-ND License:

A CCBY-NC-ND license allows authors to retain copyright in the work, and carries rights for end users who wish to reuse the work. For instance, end users may reuse the work provided they always credit the original author. Similar to the CCBY license, work published under a CCBY-NC-ND does not require users to obtain

Home | Contact & Support | Nondiscrimination Policy | Privacy & Opting Out of Cookies

Post acceptance – Authors publishing open access may choose between CC-BY or CC-BY NC-ND

After acceptance, authors will be prompted to choose their license using the Electronic Copyright Form (eCF).

- Authors publishing open access may choose between:
 - A CC-BY 4.0 license (in which the author retains copyright and the article is published open access).
 - A CC-BY NC-ND license (a more restrictive license than CC-BY in that the article may not be reused for commercial purposes, nor may the article be changed in any way.)

Authors should confirm any license restrictions set by the institution.

CC BY 4.0
is preferred

Open Access Publishing Agreements

Creative Commons Attribution (CC BY)

- Author retains copyright
- Attribution required
- Commercial use permitted
- Changes permitted

Creative Commons Attribution, NonCommercial, No Derivatives (CCBY-NC-ND)

- Author retains copyright
- Attribution required
- Commercial use not permitted
- Changes not permitted

Post acceptance – hybrid journal reminder of funding

Subject line: Eligibility for Open Access funding - JPV-2021-03-0098-R,
10.1109/JPHOTOV.2021.3086455

Dear \${system/salutation} \${system/fname} \${system/lname}:

The following article has been accepted for publication by the IEEE, \${system/article_title},
\${system/doi} and may be eligible for open access funding.

We have identified you as belonging to an institution (\${system/institution}) that has an open access agreement with IEEE. As such, you may be eligible for open access funding which covers 100% of the Open Access charges. If you would like to take advantage of this agreement and make your article open access, please contact your Journals Production Manager, \${system/journal_coordinator}, \${system/journal_coordinator_email} to request changing the publishing agreement from IEEE copyright to the Creative Commons (CCBY) license.

For more information about IEEE Open Access institutional partners visit:
<https://institutions.open.ieee.org/for-institutions-funders/institutional-partners/>

Thank you for publishing with IEEE!
\${system/journal_coordinator}
\${system/journal_coordinator_email}

Authors who choose to publish traditional (non-OA) in a hybrid title will receive an email reminding them of the OA agreement with IEEE and their institution when an active OA agreement is present based on the corresponding author affiliation.

Note: Email is only sent if institutional RLSC profile matched by the article is touch-free.

RightsLink for Scientific Communications (RLSC) in TouchFree

- All open access charges are handled through CCC RLSC.
- **Authors do not need to request funding through RLSC (in TouchFree workflow)** as this is done when a match is made between the manuscript metadata and the institution's profile in RLSC
- Institutional profiles are matched using author-provided affiliation data including email domains and/or Ringgold IDs.

Approving requests

The author receives an email when the request is approved or denied by the admin.

Steps for paying open access charges

Sign in to RLSC

Next, authors will need to create a RLSC account or sign in to an existing account.

Sign in

Password

[Forgot your password?](#)

Register for RightsLink

The RightsLink® platform is a secure e-commerce platform and thus requires you create an account to complete this transaction. This is different from any account you may have created when submitting your manuscript, however, we have pre-populated this form with as much information as possible from your manuscript data.

Contact Information and Address

☐ I am the Primary Author for this manuscript

We will prefill this form with your information, which we received from your publisher's upstream system. You are welcome to update any information in the fields below. This information will only be used for your RightsLink transaction(s).

☐ I am transacting on behalf of the Primary Author

This is common and supported by RightsLink. Simply register for a RightsLink account by entering your information below. Then, sign in and proceed with check out, where you will be presented with applicable billing options.

Glossary of Terms in this Guide

APC: Article Processing Charge for an open access publication. Can be paid by the author or by the institution. Some institutions pay for APCs in advance.

CC BY: Creative Commons By Attribution license. A CC BY license lets others distribute, remix, adapt, and build upon your work, even commercially, as long as they credit you for the original creation.

Corresponding author: is the single point of contact between the authors and the publication where the article is submitted

ECF: IEEE's Electronic Copyright Form. Completing an eCF is a required step in all IEEE journal submissions. Authors confirm the work is original, and, for OA, agree to pay the APC and sign a CC BY license

Hybrid Journal: A journal which accepts OA, but also publishes non-OA, subscription-based articles.

OA Only Journal (sometimes called "Gold OA"): A fully open access journal, 100% supported by author publication fees.

Ringgold: Database which assigns organizations and consortia a unique identifier (Ringgold ID) for scholarly communication.

Submitting Author: An author who submits all forms and communications with IEEE. Usually, the same as "Corresponding Author."

RLSC: Copyright Clearance Center's RightsLink for Scientific Communications. IEEE authors will be prompted to enter final institutional funding information into RLSC as a final step before OA publication.

More Open Science Initiatives from IEEE

IEEE Supports Open Science and Reproducible Research

In addition to the full-text article, users also want access to data and research artifacts to try to reproduce the results and see if the hypothesis holds. So IEEE introduced:

- **Code Ocean** – Allows authors to publish code or algorithms associated with research articles in a computable environment and linked to IEEE *Xplore*. Authors can upload code free of charge and users can access code without a subscription.
- **IEEE DataPort** – Enables authors to publish large data sets associated with their research. **Institutional subscription options now available** offering many benefits that help institutions comply with funding agency requirements and maintain best practices for data management, storage, while providing other researchers with access to your data.
- **TechRxiv** – IEEE launched a new Preprint Server for Engineering and Technology, a service that lets authors post early and fully open versions of their articles, prior to peer review and prior to being published.

These enhancements improve the extent we can help researchers communicate the value of their research by facilitating the communication and availability of their research findings online.

What is Code Ocean?

An online code reproducibility platform that integrates with any scholarly platform.

- Authors can publish code and datasets
- Code Ocean's widget appears on the article page
- Users and readers can start building upon other published findings
- Users get the same computational environment the original author used. No setup and installation needed
- Users can work with a suite of tools: Jupyter, Code versioning, collaboration, flexible computing etc
- Or you can export that compute capsule and work outside of Code Ocean. It's an Open Platform
- Published Compute Capsules are minted with a DOI and are open access
- code+data can now be peer-reviewed

Code
Ocean

The screenshot shows the IEEE Xplore Digital Library interface. At the top, there's a navigation bar with 'IEEE Xplore Digital Library', 'Institutional Sign In', and 'IEEE' logo. Below this is a search bar with the text 'Enter keywords or phrases (Note: Searches metadata only by default. A search for 'smart grid' = 'smart AND grid')'. The main content area displays the article title 'When Slepian Meets Fiedler: Putting a Focus on the Graph Spectrum' by authors Dimitri Van De Walle, Polina Daneshaevskaya, and Maria Gloria Pueli. It indicates 7 pages and 957 full-text views, and is marked as 'Open Access'. The abstract discusses the study of complex systems and graph models. A 'Code Ocean' badge is visible. Below the abstract, there's a 'Code Ocean' section with a 'Code' tab selected, showing a 'Graph Slepian' capsule. The capsule interface includes a 'Run' button, a 'Published Version 1.0' label, and a list of files like 'fig-main-text.png', 'fig-main-selection.png', etc. The bottom of the capsule shows a grid of small images of a tiger.

Research Data Management

- Research Data Management has always been important for the research community
- **Research Funding agencies** now want:
 - Data to be **re-used**
 - Research to be **reproducible**
- **What's New?**
 - increased attention on data by funding agencies across the globe
 - Europe's Plan S
 - US guidelines on federally funded research
 - growing focus on research reproducibility
- **IEEE DataPort** is a valuable, secure Research Data Management platform to meet these new requirements

What is IEEE DataPort?

A web-based, cloud services platform supporting the data-related needs of the global technical community

- Stores datasets up to 2TB each and enable deposits of multiple data files (indefinite data storage)
- Store up to 10TB each if a user is a member of a Premium IEEE *DataPort* Institutional Subscriber
- Open access option available to researchers
- Helps researchers comply with funder data requirements
- Datasets can be linked to IEEE *Xplore* articles
- Datasets are minted with a DOI
- Citations are formulated and provided in multiple formats for users
- Integrated with ORCID; users can optionally have the IEEE *DataPort* dataset asset automatically added to their ORCID asset list
- Can support and facilitate Data Challenges
- Can store and link related documentation – scripts, visualizations, related documentation
- Fully integrated with Amazon Web Services (AWS) to facilitate data analytics

TechRxivTM Preprint Server

- An open, moderated repository for unpublished and pre-review research in electrical engineering, computer science, and related technology.
- Authors can quickly disseminate their work to a wide audience to gain feedback of a draft version and claim credit for their unpublished research.
- Aim is to increase the accessibility of scientific findings, improve research, and build the future of scholarly communication.
- Authors can post preprint papers to TechRxiv regardless of where they eventually intend to submit and publish the paper.
- TechRxiv is for preprint research only. All submissions are screened prior to acceptance but are not peer reviewed.

Learn More About Reproducibility

In November 2016, IEEE held its first workshop on the future of research curation and research reproducibility. This meeting brought together stakeholders including researchers, funders, and leading science, technology, engineering, and mathematics (STEM) publishers. Since then, IEEE has been committed to providing resources for authors to be aware of and follow best practices of reproducible research.

The two short video tutorials below provide more in-depth information about research reproducibility.

More Resources from IEEE

- IEEE has a variety of live and on-demand webinars available to authors, IEEE *Xplore* users, universities and technology organizations
- Other available webinars provide tips and best practices to help researchers stay up to date by using intuitive new tools delivered by IEEE *Xplore*. We also offer resources to help authors get published and share their research with the technical community.
- Below is a link to register for upcoming and recorded sessions. All are free to attend and we encourage you to share this information with your colleagues.

The screenshot shows the IEEE Xplore website interface. At the top, there's a navigation bar with links for 'Content in IEEE Xplore', 'Subscription Options', 'About', 'Resources', and 'What's New'. A search icon and a 'Learn More' button are also present. Below the navigation bar, there's a large banner with the word 'WEBINAR' in white text over a background image of hands typing on a keyboard. To the left of the banner, there's a sidebar with a list of links: 'eBooks', 'Partner Content in IEEE Xplore', 'Discovery Solutions for Industry', and 'Open Science Solutions'. Below this list is a 'Next Steps' section with links for 'Contact Us', 'Request a Quote', 'Request a Free Organizational Trial', and 'Request a Subscription for your Organization'. To the right of the banner, there's a paragraph of text explaining the variety of live and on-demand webinars available to help universities and technology organizations adapt their curriculums and research strategies. Below this paragraph, there's a section titled 'Upcoming Webinars' with a link to 'IEEE Authorship and Open Access Symposium: Tips and Best Practices to Get Published from IEEE'. The date and time for the webinar are listed as 'Date: Wednesday, 30 March 2022' and 'Time: 3:00 p.m. CEST / 5:00 p.m. UAE / 9:00 a.m. ET'.

Ethics

Ethical publishing – Use of AI

Guidelines for Artificial Intelligence (AI)-Generated Text

The use of artificial intelligence (AI)–generated text in an article shall be disclosed in the acknowledgements section of any paper submitted to an IEEE Conference or Periodical. The sections of the paper that use AI-generated text shall have a [citation to the AI system](#) used to generate the text.

The sections of the paper that use AI-generated text shall have a citation to the AI system used to generate the text. Citations to AI tools should use the **Software** format (IEEE Reference Guide, pp. 16-17)

For more information on publishing ethics:

<https://journals.ieeeauthorcenter.ieee.org/become-an-ieee-journal-author/publishing-ethics>

AI-Generated Text

The use of artificial intelligence (AI)–generated text in an article **shall be disclosed in the acknowledgements section of any paper** submitted to an IEEE Conference or Periodical.

Update

Citations to AI tools should use the **Software** format [IEEE Reference Guide, pp. 16-17]

Format

J. K. Author. *Title of Software*. Date Repository or Archive. [version or year]. Publisher Name.
Accessed: Date [when applicable]. [Type of Medium]. Global Persistent Identifier. Available:
site/path/file

Example

ChatGPT. [GPT-4]. OpenAI. Accessed: Sep. 26, 2023. [Online]. Available: <https://chat.openai.com/chat>

FAQ

1. What happens if an author does not choose the name of Institution from the list suggested and insert, for example, a private email address? I think you cannot match the author with his Institution and there is no way to take advantage of the agreement?

IEEE makes every effort to match a manuscript to an available profile, using both email domain and Ringgold. If for some reason neither match and the author is eligible, the author can contact onlinesupport@ieee.org to alert IEEE that their manuscript is associated with an active institutional partner under the Care-Crui agreement and include the institution name in the email. The request for conversion must be submitted to IEEE within 90 days of publication in order to be eligible.

FAQ

2. If an author needs assistance for his workflow or, for example, to change the license for his article (sometimes it happens that the author first chooses CC-BY-NC-ND and then he changes ideas) which email address has to contact?

The author should email the journal production manager for their manuscript for assistance with the production workflow (peer review, acceptance, uploading files, changing license type, etc). If the author has questions about the APC or eligibility for OA funding, the author can contact onlinesupport@ieee.org.

3. During the webinar you mentioned that sometimes the author inserts 2 different affiliations, what happens in that case?

The first affiliation listed for an author is considered the primary and will be used for matching in addition to the email domain for the corresponding author.
